

Wood Technology Species List

SOURCE: Panshin, A.J. and C. de Zeeuw. 1980. Textbook of Wood Technology. 4th edition. McGraw-Hill Book Co. New York.

Only those woods given in "Key to Coniferous Woods - Gross Features" and "Key to Hardwoods - Gross Features" in Volume 1 (fourth edition) of the Textbook of Wood Technology by Panshin and de Zeeuw may be used as test material. In the event that they key does not differentiate between two or more species on this basis, the judges will advise the contestants as to which name to use. Latin names (genus and species) and common names will be required for answers. The use of a key during the contest is prohibited. Each school shall be sent a list of tree species from which the test will be given by If a species name shows up on the dendrology, wildlife or wood identification lists, they will all have the same common name.

Rule 10 states: If a species name shows up on the dendrology, wildlife or wood identification lists, they will all have the same common name.

HARDWOODS

Acer rubrum, red maple
Acer saccharum, sugar maple
Alnus rubra, red alder
Betula spp., birch
Carya spp., Pecan, Hickories
